**CLAY**  
A far cry from the gilt-edged teacups of our grandmothers, the range of cups from Mud Australia is constructed from porcelain clay with a clear glaze applied to the inside to create a stone-like surface. The range of Mud homewares is oven, microwave, dishwasher and food safe, making it perfect for all occasions.

**TUB**

Designer Thomas Linszen considers evolution when designing his products, particularly how, in nature, form is determined by natural forces and elements. His Bathub is created from a chair, and the weight of the water helps determine the shape during the design process.

**TREASURE**

Whether your interior preference is Georgian, Victorian, Edwardian or Oriental, finding that key piece to complete a room can be like finding buried treasure. If fortune is on your side, you may well discover that elusive piece amongst the thousands of antiques at Gabba 5 Ways Antiques Emporium.
